The Urban Planning and Development Group is teaming up with the US Green Building Council to offer a half day LEED prep course. The course covers all credit areas to take the LEED for New Construction exam. A course book and sample questions will be provided. It is strongly suggested to purchase the *LEED for New Construction 2.2 Reference Guide* prior to the course. Visit www.usgbc.org and go to the USGBC Store and then click on Publications to purchase the reference guide. Additional test preparation will be required before taking the exam.

This is the last opportunity to prepare for the LEED exam prior to the change in the LEED program. **Effective April 1, the USGBC will require LEED experience in two projects BEFORE you are eligible to take the exam. If you pass the exam prior to March 31, LEED experience is not required.**

SPACE IS LIMITED TO 50 REGISTRANTS, so please register early. The registration fee for this seminar is \$100 per person. Registration needs to be received by Friday, February 20, 2009. Please fill out the registration form below and mail with check payable to "ASCE IL Section - UPDG".
