

**ILLINOIS
CIVIL ENGINEER
(Lisle, IL & St. Louis, MO Area Offices)**

GBA Architects and Engineers provides innovative, sustainable solutions for high-profile buildings, civil/site development, land planning, municipal engineering, surveying, transportation, and water resources and environmental projects. Ingram's magazine has recently named GBA as one of the "Best Companies to Work For"! Founded in 1969, GBA today has a staff of more than 180 located in five offices in Kansas, Missouri and Nebraska. Members of the firm's multi-disciplined staff work in partnership with our clients to accomplish our core purpose—"creating remarkable solutions for a higher quality of life." GBA has provided planning and design services for numerous high-profile projects throughout the region. To learn more about GBA, our staff and capabilities, visit our web site at www.gbateam.com or our blog at www.gbateam.blogspot.com.

GBA has an opportunity available for an individual that is most qualified for either of the following positions:

- Highway or traffic design leader. This individual must have an IL PE. The traffic position also requires a PTOE.

Requirements:

- A BSCE
- At least 5 years of Civil Engineering experience
- At least 5 years of experience working on IDOT projects
- Experience managing projects and leading others
- Strong technical ability with design software

GBA offers the opportunity for growth based on performance, a competitive salary, and an excellent benefits package. To be considered for this position, please complete an online application including salary requirements and submit resume at www.gbateam.com under Careers or send a cover letter with salary requirements and resume to S. Burnett, GBA, One Renner Ridge, 9801 Renner Blvd., Lenexa, KS 66219.
