# NOMINATION FORM

## OUTSTANDING CIVIL ENGINEERING ACHIEVEMENT AWARD

Illinois Section  
Founded 1916

This award is presented to Engineering Projects within the ASCE Illinois Section that exhibit greatest engineering skills and represents the greatest contribution to Civil Engineering progress and Mankind. A project is eligible if the following requirements occurred in between August 2021 through August 2022:

- **Projects must be located in the Illinois Section boundaries.**
- **Bridges, Tunnels, Waterways, Structures, Roads (other than toll)** – eligible only when carrying traffic. (Time of dedication or final completion is not important).
- **Toll or Similar Regional Roads** – any portion in use may be eligible in the competition on its own merit. The entire road may be entered for the year's Award when it is 75% operational.
- **Water Supply, Flood Control Dams** – eligible when ready to take the full design head of water.
- **Power Dams** – eligible when the major civil-engineered construction is completed, and the structure can take its design head of water (When power goes on-line is not important).
- **Fuel Power Plants (including nuclear)** – eligible when power goes on-line.
- **Buildings and Structures** – eligible when ready for use.
- **Airports and similar large developments** – eligible when a structure or feature (such as major buildings or runways) is operational. However, such structures or features must stand on their own in the competition, with no consideration for the overall project. The entire project may be considered for the year's Award when it is judged to be 75% operational.
- **Water Supply, Waste Disposal** – Any portion may be eligible in its completion year, but the portion will be considered on its merits, rather than representing the overall project. Where only additional units, similar to those already functional, remain to be completed, the entire project may be considered for the year's Award when it is 50% operational.
- **Military Projects (bases, launching units, harbor facilities)** – eligible for their civil engineering aspects
- The eligibility of projects other than those fitting the above categories will be determined by the Awards Committee.
- No project or component part thereof is reconsidered after having received an award.
- Award categories: \$10 million or less, \$10 million to \$25 million, \$25 million to \$100 million, Over 100 million.

# OUTSTANDING CIVIL ENGINEERING ACHIEVEMENT AWARD

## Submittal Requirements

1. A completed nomination form (this form).
2. A nomination statement, **no greater than 400 words**, describing the following criteria that will be considered in the selection process:
  - 2.1. Contribution to the well-being of people and communities.
  - 2.2. Resourcefulness in planning and in the solutions for the design problems.
  - 2.3. Innovations in construction materials and methods
  - 2.4. Impact on the physical environment, unusual aspects, and aesthetic values.
3. Support documentation should include a description of project problems, unique/challenging project features, technical and other kinds of difficulties, other project aspects deserving consideration, and project photos. A one-minute video submission of the project is optional for nominations. Videos will be required for project winners.
4. A statement of support by the owner/client is required.
5. Provide a list of companies involved (prime consultant, subconsultants, general contractor)

Please mail one (1) original or e-mail a PDF of the award application **no later than JULY 15, 2022** to:

# Outstanding Civil Engineering Achievement Award NOMINATION FORM

Name of Project: \_\_\_\_\_

Location of Project: \_\_\_\_\_

Project Cost: \_\_\_\_\_

## **NOMINATED BY:**

Name: \_\_\_\_\_

Title: \_\_\_\_\_

Company: \_\_\_\_\_

Address: \_\_\_\_\_

\_\_\_\_\_

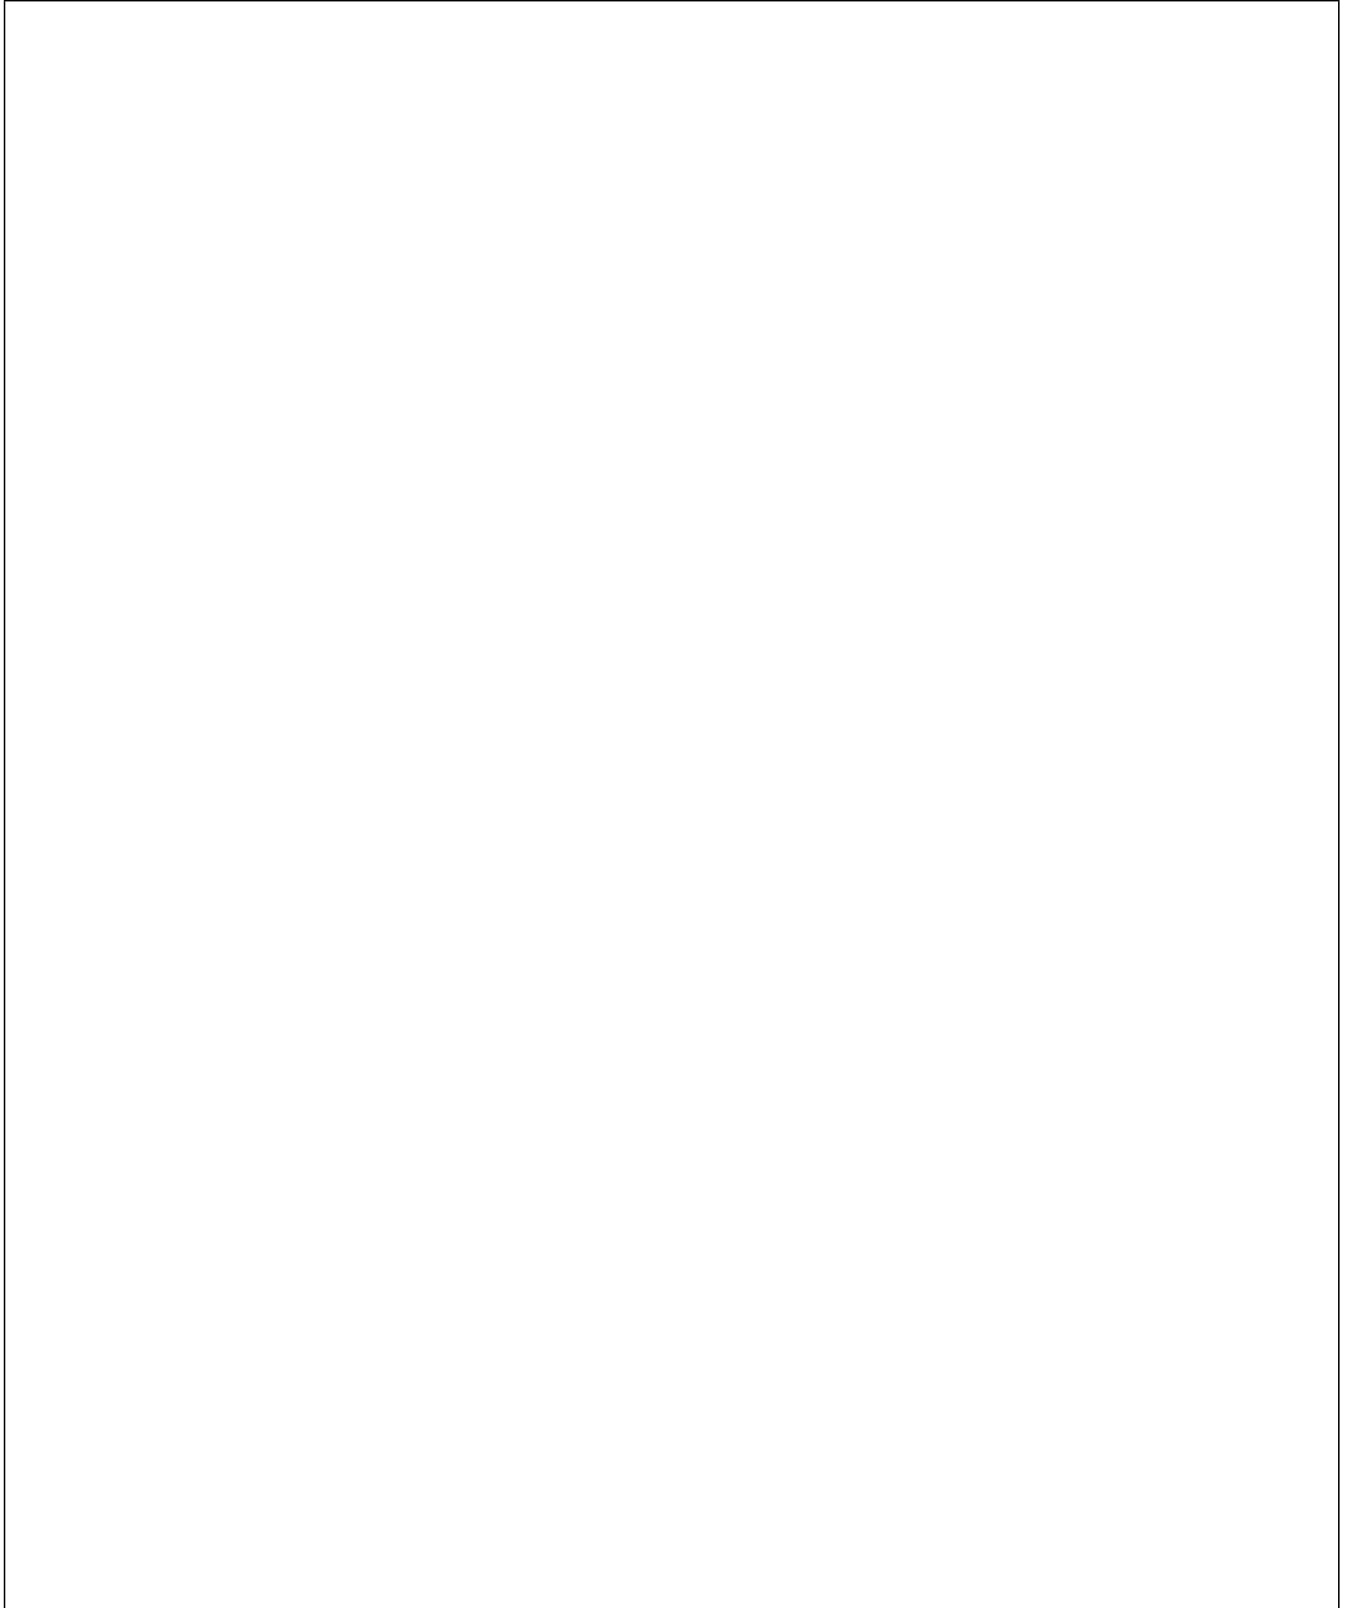

Phone: \_\_\_\_\_

E-mail: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Nomination Letter** – maximum **400 words** addressing the following:

- Contribution to the well-being of people and communities.
- Resourcefulness in planning and in the solutions for the design problems.
- Innovations in construction materials and methods
- Impact on the physical environment, unusual aspects, and aesthetic values.

A large, empty rectangular box with a thin black border, occupying the majority of the page below the instructions. It is intended for the user to write their nomination letter within this space.
